

DESCRIPTION OF FOUNDER

Dr. J. Theodore Brown Jr is the founder and CEO of Telecare LLC a hybrid based health technology platform that facilitates access to health care and promotes the home as an option to receive certain health care services. He is originally from New York City and strongly believes that technology can enhance and make health care more accessible and affordable on a global basis.

Before Telecare LLC, Dr. Brown worked in developing and organizing technology solutions and programs for some of the most challenging mental health and substance abuse problems, as well as creating and integrating health protocols and models of home health care for the elderly and chronically ill.

Dr. Brown has a broad range of clinical experience that includes clinical program development, management, forensic consultation, research and education. He served in the US Navy Medical Service Corp. and is a Plank Member of NRMC, Okinawa, Japan. He has served as expert witness for the U.S. Congress and represented the U.S. Clinically and Diplomatically abroad for the U.S. Department of State.

He created and received approval for the first and only FDA approved Home Drug Testing System sold over the counter. He holds a Ph.D. in Experimental Clinical Psychology from S.U.N.Y Stony Brook and currently lives in New Jersey with his wife of twenty years.

**A DIGITAL
HEALTHCARE
COMPANY
PRIMARY CARE**

Primary Care Providers have to deal with the full spectrum of health disorders and diseases, often without the benefit of desired input and clinical support. This is especially true for mental illness, substance abuse, clinical problems of the disabled, the elderly and chronically ill. Telecare LLC offers the option to receive the desired input and consultation from experts and specialists conveniently and efficiently via the use of technology. These services can be provided to Patients without their having to travel or leave the convenience of their home.

Telecare LLC

1501 Oakland Avenue, Suite D
Millville, New Jersey 08332-0009

CONCEPT

Telecare LLC was originally conceived with the purpose of creating a new standard of care to serve the healthcare needs of disabled Veterans. As an afterthought, we realized that if the “standard of care” we established was extended to other special needs groups, it would help improve the quality of health care for society at large

TELECARE PRIMARY OBJECTIVES

Telecare’s primary objective is to create an integrated, virtual, technology enhanced model of health care that facilitates communication between health care Providers and their Recipients.

Telecare LLC believes that **home care** is the future of health care. We believe this is especially true for:

- Disabled Veterans
- Persons Affected by Mental Illness
- Persons Affected by Substance Abuse
- The Elderly, Disabled
- Persons with Chronic Illness
- Children with Special Needs
- Persons restricted from receiving proper health care due to weather, limited transportation and those living in remote/rural areas.

TELECARE LLC PRIMARY CARE SERVICES

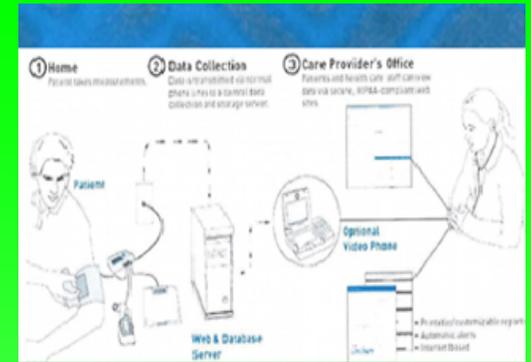

Telecare LLC uses technology and innovative products to provide a unique array of home programs such as:

- Electronic Health Record
- Audio/Visual Conferencing
- Primary Examination & Diagnosis
- Medication Prescriptions & Monitoring
- Specialty Consultation & Referral
- Emergency Consultation & Referral

TELECARE BENEFITS FOR PATIENTS
